Global Content Studio
Live in 25 countries

Aimee AI coach
Designed for 3 surfaces

Hub redesign
+200% engagement (internal)

Financial Finesse B2C App
2 days from CEO's idea to prototype

EXPERIENCE

Financial Finesse — 2016 – Present

Senior AI-Native Product Designer · AI Team — 2025 – Present

- **I joined when the company had a brand and no product.** I designed every product it ships today, working directly with the CEO and the dev team.
- **I built Global Content Studio.** I saw writers putting company content into unregulated AI tools, so I designed a safe way to do it and built the first version with Claude Code. It was in launch testing four weeks after my first commit, localized 3,512 pieces in one four-day run, and is now live in 25 countries. imbrimay.com/work/global-content-studio
- **I designed how review works.** The AI flags problems, and a person approves every article before it goes live. On 75 real UK articles, the checks rewrote 13 for UK readers and dropped 62.
- **I designed Aimee, our AI financial coach,** for the Hub, a client widget, and Microsoft Teams. I prototyped her in code, then merged her design tokens and four components into the production SDK myself. imbrimay.com/work/aimee
- **I ship production code.** I built the review screens that decide what gets published, and I keep our design system in code, accessible and in light and dark mode.

Product Creative Director — 2022 – 2026

Customers include the Federal Reserve, Meta, NFL, JPMorgan Chase, Nestlé, Patagonia, Comcast, McKinsey

- **I moved our design from marketing-led to product-led,** brought in user research, and set the quality bar as the team grew.

Lead Product Designer — 2017 – 2025

- **I prototyped the first Hub in 24 hours.** For its 2024 redesign, I turned a one-page concept into the full design in 2.5 weeks, ran 5 rounds of user testing with 48 people, and launched with dev by the January 1 deadline. Internal reporting showed +200% engagement. imbrimay.com/work/hub

Senior Graphic Designer — 2016 – 2017

- I built the brand and our first design system. Within a year the job turned into product design.

CKC Communications · Graphic Designer — 2012 – 2015

- Branding, websites, and campaigns for 50+ companies.
